Experience

SRE & Frontend

TheFly Nov 2021 - Actualidad

- Optimized and maintained the mobile web app, reducing its size and increasing its performance.
- Converted all services to Docker images and documented their usage and implementation.
- Created a bare-metal Kubernetes cluster from scratch that reduced costs and made deployments easier to manage.

SRE & Full Stack

Risoli Oct 2019 - Nov 2021

- Created a fully dockerized analytics platform from scratch that enabled greater strategic control.
- Generated the necessary infrastructure to develop, maintain, and scale all containers and repositories.
- Designed and built the main website, fully optimized for SEO and performance.

Additional

Languages

- English: intermediate, no certification
- Spanish: native
